

Item	description	QTY
1	<p>-Multi component air quality monitor equipped with CO, NO2, O3, SENS3000 tick film sensor and built in microprocessor - data logger Metallci case IP55 with key – lock and mounting kit for Pole.</p> <p>-Additional SENSOR SENS3000 C6H6, H2S</p> <p>-Sensor specification: CO(0–100mg/m³), NO₂(0-500µg/m³), O₃(20-500µg/m³), C₆H₆ (0 - 100 µg/m³), H₂S(0 - 15 µg/m³)</p> <p>-GSM MODEM 4-band GSM Modem mounted inside It allows to download data and upload a new configuration from a remote station.</p> <p>-@COM3000 Master station software for remote control via modem or GSM or direct via RS232,of a network of units, data management, elaboration, trends, graphs.</p> <p>-MET3000 WEATHER STATION For temperature, humidity, wind speed, wind direction, precipitation and barometric pressure measurement</p> <p>-PM10-LS Second optional module for ETL3000. It allows ETL3000 to measure PM10 or PM2.5 concentration in ambient air using light scattering principle. It consists of a separate box which is connected to the ETL3000 to get power and exchange data.</p> <p>-dB3000 Noise monitor with 60 dB dynamic range</p> <p>-Origin :European, American, Japanese</p>	<p>2</p> <p>2 for each</p> <p>2</p> <p>2</p> <p>2</p> <p>2</p> <p>2</p>
